SAUVIGNON

A STORY OF COLLABORATION

Alpha Project Cabernet Sauvignon is the result of a fruitful collaboration between a well-respected restaurateur and a celebrated vintner who wanted to craft the ultimate food-friendly wine. Together they sipped, conferred and sipped some more until they hit on a wine that would appeal to sophisticated, modern tastes while showcasing traditional varietal character. A rich, ruby red in the glass, this North Coast AVA Cabernet Sauvignon offers spicy black cherry aromas and juicy blackberry flavors—perfect for elevating any dining experience.

WINEMAKING

Alpha Project grapes are sourced from the North Coast AVA, one of California's renowned growing regions. The North Coast Cabernet Sauvignon grapes give this wine its rich berry flavors and full body while blending a touch of Merlot and Petite Syrah creates the perfect balance. Enhancing the wine with French and American Oak rounds out the mouthfeel and creates a long, smooth finish.

TASTING NOTES

The deep ruby color of Alpha Project Cabernet Sauvignon is the first hint that your taste buds are in for a treat. The rich color in the glass is indicative of the spicy black cherry and mocha aromas and delicious flavors of juicy cherry and blackberry. Soft, round tannins create a smooth finish with just a dash of bittersweet chocolate at the end. Enjoy a glass of Alpha Project Cabernet on its own, or better yet with a mouthwatering steak, grilled-to-perfection.
